Dedication: In honour of St. Michael the Archangel whose feast in the Roman Catholic Church falls on September 29th. From the Douai-Reims Bible 1899 American Version of Apocalypse 12: 7-9: "*And there was a great battle in heaven, Michael and his angels fought with the dragon, and the dragon fought and his angels: And they prevailed not, neither was their place found any more in heaven. And that great dragon was cast out, that old serpent, who is called the devil and Satan, who seduceth the whole world; and he was cast unto the earth, and his angels were thrown down with him*."

St. Michael's Cathedral

Nestled in the heart of downtown Toronto St. Michael's can trace its founding to the 1840s long before the current structures towering over it today existed. The first idea of the building's conception came from Bishop Michael Power in 1842. With 3, 000 of the city's Catholics being served by St. Paul's Church, Bishop Power realized a new, good sized structure was needed. Toronto architect William Thomas was approached to design plans. In 1845 land was purchased from Capt. John McGill for 1, 800 pounds. That year, on May 8th, a cornerstone-laying ceremony was held with the Cathedral being dedicated to St. Michael and the new diocese being placed under patronage of the Sacred Heart of Jesus and Most Pure Heart of Mary. Bishop Power's vision for the new Cathedral might as well have been a prophecy. Two years later, in 1847, over 20, 000 Catholics caught up in the Great Famine in Ireland flooded the streets of Toronto. The project was completed in 1848. Although a vacant building for some time it wasn't long before St. Michael's was doing its job and serving the needs of most of Toronto's Roman Catholic faithful. When a new St. Paul's church was constructed in 1889 St. Michael's became the oldest Catholic church building in Toronto. It has endured eighteen decades of service and been the witness of countless baptisms, confirmations, marriages, ordinations, benedictions, and burials. It has been said that this edifice is *the* symbol of Roman Catholicism in Ontario. (Sources: Wikipedia, St. Michael's Cathedral Basilica; Archdiocese of Toronto, St. Michael's Cathedral Basilica, *History of the Cathedral*)

Marriages at St. Michael's

This book covers marriages that were contracted from over 5, 000 persons-2, 500 couples-at the Cathedral between the years 1850 and 1910. Although most of the faithful attending Mass and ceremonies were of Irish extraction, English, French, Scottish, Italian, Polish and Russian among others were to be found in St. Michael's parish.

The main purpose of this work is to help those undertaking genealogical research find their ancestors. As well, to those who have gone before us, those who contributed to the founding and enlargement of young Toronto, this work is a memorial to them. Marriage, as the nucleus of society, although often underscored in our day, was a powerful institution in the 19th and early 20th centuries guaranteeing the strength and continuation of a new country.

People of all social classes were married at the Cathedral including a few honorable mentions: children of John Crawford, Lieutenant Governor of Ontario and Hugh McDonald, son of Sir John A. McDonald, William Hingston, Mayor of Montreal to Margaret Josephine MacDonald, daughter of D.A. MacDonald, Lieutenant Governor of Onyario.

The Index By Categories and How It Works

This work covers some 2,500 marriages performed over a 60 year period. Five registers in digital form online were consulted. It is a *transcription index*. That is, it records from the registers exactly-as much as possible-names as they were written down. In the 19th century there was no standardization of names and they were spelled in a number of different ways. The given name Sarah, for instance, will also be found in this index spelled ‘Sara’ , ‘Saragh’ or ‘Seragh’. There are also variations on first name abbreviations. One example: Bridget will be seen in the text below as Bt, Bgt, Brgt, Brid, etc. A table is included to help with abbreviated names. However, it is incumbent on the researcher to ‘keep an open mind’ when looking for surnames. Like given names family appellations were for the most part unstandardized before. Tremblay, for example, has been found as ‘Tramblay’, ‘Tremblai’, ‘Tremblais’, or ‘Tremblaye’. To aid the researcher, this book uses soundex to group family names together that are very similar. Some changes were made by the author. Names like ‘O’Reilly’ and ‘O’Malley’ were not often given apostrophes in former times but they are given as such herein. Also, names that are found in registers uncapitalized are given capital designation.

Other information about this work is found in the appropriate categories below.

GROOM The order of names indexed are of given names first and then subsequent family names. These all appear how they are written in the registers consulted. The use of middle names is not mandatory here. They may or may not appear. A person’s initials are not usually included unless they are alone in a marriage entry. Persons having more than one surname or given aliases; these are also found herein.

BRIDE The order of names indexed are of given names first and then subsequent family names. Names appear how they are written in the registers consulted. The use of middle names is not mandatory here. They may or may not be found. A person’s initials are not usually included unless these appear alone in a marriage entry. If persons have more than one surname or given aliases these are also found herein. If the bride is a widow and her previous spouse's name is in the marriage act then she will be listed also with that name usually as written in the register. Sometimes this information was not written down by the priest and a researcher may come across a bride who has a different family name from that of her parents. If this is the case she is more than likely a widow.

GROOM’S PARENTS/BRIDE’S PARENTS As the 19th century spelling of names was not fixed some of the spellings between parents and children’ names may differ in entries. In the early days of St. Michael’s parents' names were usually not recorded in marriage records. Therefore, a designation of ‘NG’ (Not Given) is applied. This is the same for blank parents columns. Blank entries also could mean that names were too faded, very poorly penned or hazarded a guess for the author.

DATE The common Ontario dating form is used: month, day, year (mm,dd,yy). In some 19th century marriage records or acts only a partial date was written or sometimes no date at all. When this occurs supplied assertions by the author will be given in square brackets [ ].

SOURCE REG No. REG refers to the registers listed on the Sources Consulted page. Links are provided to bring the researcher to online availability.
